

Plumbing Contractors

Our *Solutionists* are dedicated to delivering expert safety and claim solutions to manage costs and keep employees safe at work.

What Sets Us Apart

Safety Guidance Second to None

- When it comes to understanding plumbing contractor exposures to injury, our safety team has a reputation for being one of the best.
- All of our safety services, events, training (including OSHA) and online resources are provided at no additional cost to policyholders.

Here are a few specific safety recommendations from our experts:

- Proper housekeeping and assessing each jobsite reduces many lower back strains by removing hazards before starting each job.
- Teach employees proper lifting, bending and kneeling techniques to reduce injuries.
- Wearing protective knee pads, stretching or taking short breaks can lessen repetitious injuries.
- Wearing goggles or protective eyewear when using high-pressure water jetters or handling chemicals helps prevent eye injuries.

Personal Claims Management

- A single point of contact - each plumbing contractor has a dedicated adjuster regardless of the number of locations or claim count. Assistant adjusters help close claims quickly and lower caseloads.

Return to Work Team Approach

- We know the work responsibilities and business needs unique to plumbing contractors.
- When a plumber slips and falls or suffers a back strain, our *Solutionist* team works proactively with the plumbing contractor to bring injured workers back quickly and safely.

We Know Plumbers

Plumbing contractors are consistently one of the top industry types we insure.

Our decades of experience include servicing over 724 plumbing contractors ranging from single location to multistate.

Successful Track Record

We insure plumbing contractors with total payroll ranging from more than \$30,000 to over \$12,044,280 million and employee counts less than five to nearly 297.
